FireBase - Project Overview

The screenshot shows the Firebase Project Overview dashboard with a dark theme. On the left, a sidebar includes links for Generative AI (Build with Gemini), Project shortcuts (Firestore Database, Authentication, Hosting, Analytics Dashboard, Release Monitoring), What's new (App Hosting, Data Connect), Product categories (Build, Run, Analytics), and All products (Blaze, Pay as you go). The main area features a prominent callout for "Gemini in Firebase" with a "Try it now" button. Below this, the "Build" section displays "Hosting" metrics: Downloads (7d total) at 896KB, a line chart showing a peak on May 14, and a deployment history entry from Apr 28, 2024, at 1:21 AM, deployed by elicasper2000@gmail.com.

Gemini in Firebase

Get answers to questions about Firebase products, use cases, and features. Generate code for development and shorten your troubleshooting process with new insights—with the assistance of a natural language chat interface directly in the Firebase console.

FireBase - Authentication

The screenshot shows the Firebase console's Authentication screen. On the left, a sidebar lists various services: Project Overview, Generative AI (Build with Gemini), Project shortcuts, Firestore Database, **Authentication** (selected), Hosting, Analytics Dashboard, Release Monitoring, What's new, App Hosting, and Data Connect. Below these are sections for Product categories (Build, Run, Analytics) and a link to All products. At the bottom, there are Blaze and Modify options. The main content area is titled "Authentication" and contains tabs for Users, Sign-in method, Templates, Usage, Settings, and Extensions. The "Users" tab is selected, displaying a table with two rows of user data. The columns are Identifier, Providers, Created, Signed In, and User UID. The first user is daniellethompson2011... and the second is test@gmail.com. Both users were created and signed in on April 28, 2024. The User UIDs are 4cM4WxCtEFh4LdVUJBRkjrqjt... and PSnvjGVjKxcdG9eltmV1NeG... respectively. A search bar at the top of the table allows searching by email address, phone number, or user UID. Buttons for "Add user", refresh, and more options are also present.

Identifier	Providers	Created	Signed In	User UID
daniellethompson2011...	✉️	Apr 28, 2024	Apr 28, 2024	4cM4WxCtEFh4LdVUJBRkjrqjt...
test@gmail.com	✉️	Apr 28, 2024	Apr 28, 2024	PSnvjGVjKxcdG9eltmV1NeG...

Firestore Database

The screenshot shows the Firebase Cloud Firestore interface. On the left, the navigation sidebar includes links for Project Overview, Generative AI (Build with Gemini), Project shortcuts, Firestore Database (selected), Authentication, Hosting, Analytics Dashboard, Release Monitoring, What's new, App Hosting, Data Connect, Product categories, Build, Run, and Analytics. The main area displays a hierarchical database structure under the path `users > PSnvjGVjKxcd... > boardsData > oRL5ukVQOLEk...`. The `boardsData` collection contains a single document `oRL5ukVQOLEkOBdCDttk`. This document has fields `lastUpdated` (set to April 28, 2024 at 2:05:50 AM UTC-4), `tabs` (with `completed` and `inProgress` sub-fields, the latter containing a single item with `id: "c9c78bac-224b-481a-923e-eab925ba76c5"` and `text: "Task 2"`), and `todos`.

CREATE BOARD

The screenshot shows the FlowBoard application interface. At the top, there is a dark header bar with the "FlowBoard" logo on the left and "Create Board" and "Logout" buttons on the right. Below the header is a large, semi-transparent "Create Board" modal window. The modal has a dark gray background and contains the following elements:

- A title "Create Board" at the top left and a close button "X" at the top right.
- A "Board name" input field below the title.
- A "color:" label followed by a horizontal row of six colored circles: orange, red, yellow, teal, blue, and gray. The first three colors are outlined, while the last three are solid.
- A large purple "Create" button at the bottom.

At the very bottom of the screen, there is a white footer bar with the text "Running in emulator mode. Do not use with production credentials."

PROJECT BOARD

The image shows a screenshot of a web-based project management application called "FlowBoard". The interface has a dark blue header bar at the top. On the left side of the header is the "FlowBoard" logo, which consists of a white icon followed by the word "FlowBoard" in white capital letters. On the right side of the header are two buttons: a purple "Create Board" button and a white "Logout" button with a user icon. Below the header, there is a main content area with a dark background. In this area, there are three identical-looking cards arranged horizontally. Each card has a white border and contains the text "Board name" and "Created at: 03/15/2024" in white. To the right of each card is a small white edit icon. At the bottom of the page, there is a thin white horizontal bar containing the text "Running in emulator mode. Do not use with production credentials." in red.
